Industrial Plastic Distribution

To Our Valued Customers,

Thank you for your business and the opportunity to serve you. First and foremost is the health and safety of our customers and employees while continuing our daily operations during the Coronavirus (COVID-19) Outbreak.

Our Executive Leadership team is actively engaged on a daily basis to manage this rapidly evolving situation. We are closely monitoring the latest reports from the Centers for Disease Control (CDC) and the World Health Organization (WHO) and are taking a number of precautionary measures for the health and safety of our customers and team members alike. We have also;

- Educated our team members on best practices as recommended by the CDC.
- Implemented deep cleaning procedures at all our facilities.
- Restricted all non-essential business travel.
- Requested all employees practice social distancing at and away from work.

We are working closely with our suppliers to maintain the flow of product and supplies. The majority of our suppliers manufacture product domestically and are operating at normal capacities. They are closely monitoring the availability of raw materials. Most of the products we carry are supplied by multiple suppliers thus lowering the risk of supply chain interruptions. We also have a large inventory of products in our nine stocking facilities across the country.

Lastly and most importantly, our team members are available to help, as always. We are here and committed to servicing you during this trying time for all of us. In the event you require emergency service, please contact us @ 800-742-3444.

Sincerely,

Cole Klokkevold

Interstate Plastics

CEO
