

Foster® 4080 Disinfecting Instructions

1. Wearing the included gloves, apply undiluted Foster 4080 to hard, non-porous surfaces, thoroughly wetting the surfaces with an included microfiber towel or by immersion.
2. For heavily spoiled areas, preliminary cleaning is required. (See Brillianize directions for cleaning.)
3. Allow treated surfaces to remain wet with 4080 solution for a minimum of 10 minutes.
4. Wipe dry with a clean cloth, sponge, or mop; or allow surfaces to air dry.
